Profile

I am a student at State Vocational High School 12 Jakarta majoring in Software Engineering. I am interested in everything related to IT, especially Website Developer. Accustomed to using tools such as Visual Studio Code, XAMPP, and Github. Honest, disciplined, and can work well in a team. Active in extracurricular activities as an administrator, active in organizations, and have project experience such as making student internship management applications at UPT TIK Universitas Negeri Jakarta.

Experience

FRONTEND WEBSITE DEVELOPER | FREELANCE | OQUERY-STUDIO | | JUN 2023 - AUGUST 2023

- Creating the appearance of the data management website of several schools and teachers and staff in Malaysia. My job was to implement the design from the UI/UX designer team into code.

WEBSITE DEVELOPER | INTERN | UPT TIK UNJ | | JANUARY 2023 - APRIL 2023

- The creation of an internship student management application at UPT TIK Universitas Negeri Jakarta. My job is to be a Fullstack Developer who takes care of creating a system in the attendance and online journal filling section.
